Andris Rožkalns

Junior QA / Linux & Internal IT / AI Data Quality

Dortmund, Germany Available from January 2027 andris@rozkalns.net github.com/rozkalnsandris rozkalns.net

PROFILE

Career changer building practical software testing, Linux operations and data-quality skills through public projects. Evidence includes browser regression and contract checks, deterministic builds, Docker, Git, Python and REST API work; this is project evidence, not professional IT employment.

SKILLS

Testing & Data Quality	Browser regression testing · Contract validation · Data validation · REST APIs · Basic SQL (learning) · HTML/CSS
Linux & Operations	Linux administration · systemd · SSH/FTP
Containers & Monitoring	Docker · Docker Compose · Prometheus · Grafana
Networking & Web	Networking · DNS · SSL/TLS · Nginx
Automation & Git	Bash · Python · YAML · Git

SELECTED TESTING AND SYSTEMS PROJECTS

rozkalns.net CV platform
Multilingual CV platform with deterministic frontend/PDF generation, browser regression tests, contract/accessibility/security checks and exact-SHA CI validation.

Self-hosted Linux server environment
Self-hosted Linux environment using Docker Compose, Nginx, DNS/TLS and systemd, with source-backed operating evidence.

Monitoring and observability
Prometheus/Grafana monitoring plus Bash health and maintenance automation used as operational evidence.

EXPERIENCE

Warehouse Employee · Sonepar Deutschland · Dortmund — Jan 2024 – Dec 2026 (planned)
- Processed high-volume electrical wholesale orders using scanner systems.

Warehouse Employee · KBS · Dortmund — Jul 2023 – Dec 2023
- Worked at the same Dortmund warehouse before the employer and contract changed to Sonepar in January 2024.

Paint Shop Supervisor / Lead Sprayer · SIA Koksne · Latvia — May 2020 – Jun 2023
- Managed daily production, warehouse operations, staff tasks and workflow.

Warehouse / Shop Manager · SIA Apavu Bode · Latvia — Aug 2011 – Apr 2020
- Managed receiving, stock organisation, staff coordination and daily operations.

Early IT — self-taught · Secondary school · Riga — 2008 – 2011
- Administered Linux Counter-Strike servers via SSH/FTP and troubleshot configurations.
