ANDRIS ROŽKALNS

Dortmund, Germany · andris@rozkalns.net
IT portfolio & online CV: rozkalns.net

PROFILE

I run my own web applications and Linux/Docker systems, working with data validation, API interfaces and software quality. I manage changes using GitHub, pull requests and automated CI checks. My practical logistics background adds an understanding of real-world goods and data flows.

IT PRACTICE PROJECTS

Hermes Deals GitHub

Own web application for offer data using FastAPI, PostgreSQL and Docker: data validation, API interfaces and traceable changes with GitHub and CI checks.

Hermes Tech Website

Automated RSS data processing with Python and SQLite; AI-assisted content validation, quality rules and CI checks before publication.

Ausmalwiese Website

Web catalogue with clear validation rules for content and A4 print output; version-controlled changes and automated checks in the GitHub workflow.

PROFESSIONAL EXPERIENCE
