

# Andris Rožkalns

## Junior Technical Support / Linux Operations

Dortmund, Germany   Available from January 2027   andris@rozkalns.net   github.com/rozkalnsandris   rozkalns.net

### PROFILE

Career changer building hands-on Linux support and operations skills through public projects and a structured lab. Current public evidence covers Linux administration, systemd, Docker Compose, DNS/TLS, monitoring, Bash, Python and REST API work; incidents are approached through evidence, hypothesis testing, verification and clear documentation.

### SKILLS

|                         |                                                |
|-------------------------|------------------------------------------------|
| Linux & Operations      | Linux administration · systemd · SSH/FTP       |
| Networking & Web        | Networking · DNS · SSL/TLS · Nginx             |
| Containers & Monitoring | Docker · Docker Compose · Prometheus · Grafana |
| Application Support     | REST APIs · Basic SQL (learning) · HTML/CSS    |
| Automation & Git        | Bash · Python · YAML · Git                     |

### SELECTED INFRASTRUCTURE PROJECTS

- Linux Operations Lab**  
Structured public Linux/support learning portfolio with an evidence-first troubleshooting model; completed artifacts are published only when they exist.
- Self-hosted Linux server environment**  
Self-hosted Linux environment using Docker Compose, Nginx, DNS/TLS and systemd, with source-backed operating evidence.
- Monitoring and observability**  
Prometheus/Grafana monitoring plus Bash health and maintenance automation used as operational evidence.

### EXPERIENCE

- Warehouse Employee · Sonepar Deutschland · Dortmund** Jan 2024 – Dec 2026 (planned)
  - Processed high-volume electrical wholesale orders using scanner systems.
- Warehouse Employee · KBS · Dortmund** Jul 2023 – Dec 2023
  - Worked at the same Dortmund warehouse before the employer and contract changed to Sonepar in January 2024.
- Paint Shop Supervisor / Lead Sprayer · SIA Koksne · Latvia** May 2020 – Jun 2023
  - Managed daily production, warehouse operations, staff tasks and workflow.
- Warehouse / Shop Manager · SIA Apavu Bode · Latvia** Aug 2011 – Apr 2020
  - Managed receiving, stock organisation, staff coordination and daily operations.
- Early IT — self-taught · Secondary school · Riga** 2008 – 2011
  - Administered Linux Counter-Strike servers via SSH/FTP and troubleshoot configurations.

### EDUCATION AND LEARNING

- Linux Operations Lab**  
Public seven-week support/Linux operations plan; evidence is added as work is completed. · Starts 14 Sep 2026
- Multimedia Communication**  
Rīga Stradiņš University · partial studies · 2011 – 2013
- Secondary Education**  
Rīga 45th Secondary School · Latvia · 2004 – 2011
